"Apprehension about the outlook must now give way to a feeling of optimism," he said.

But while Mr. Wolcott painted a bright economic picture, the President of the Congress of Industrial Organizations, Mr. Walter Reuther, called for steps to expand the economy, "or we will be confronted with increasing unemployment."

Peculiar Relations

"Herut." speculating on Mr. Duller statement that relations between his country and Israel are "very peculiar," wenders whether he meant Israel's unwillingness to sacrifice its future for the appeasement of the Arab governments or the ingratitude of the Jews who are not ready to give up their independence and the principle of immigration. "Kol Ha'am" (Communist) disagrees with asending Rav Aloof Dayan to the U.S.

Domestic topics dealt with in Sunday's editorial columns include a leading article in "All Hamishmar" (Mapam) welcoming the debate in the Histadrut on ways and means to encourage the "town-to-country" movement. The transfer of 15,000 urban workers to agricultural settlements is no mean achievement, anys the paper, but it is less than could and should be done in view of the exigencies of this country. Interrupted, and serious damage has been done to property.

There is no doubt that the sincere intention of General Bennike is to bring about a relaxation of tension, and that just recently he has prevented what might have developed into an ugly and uncontrollable situation. But unless he takes a different course to that adumbrated in his statement yesterday and really fixes the responsibility for starting the incident on Jordan where the weight of evidence has placed it, he will not reduce tension. Peace does not come of itself. It has to be worked for. It is the result of moral courage and the power of judgment and the power of judgment and decision applied fearlessly to problems. It is a function of the attribute of justice. The sages of old were quick to discern that the sword comes into the world through the svasion of justice. A CORRESPONDENT writes that she was trying to re-register her child for the coming school year, with a mental sigh because, for some reason she has not yet discovered, he does not care to learn anything at all. Behind her, a proud mother exclaimed angrily, "There must be room jor my son at the so-and-so-school, you don't know him, he's a real little Spinoau." "And mine," added our correspondent encouragingly, "and think how lucky Spinosu was that he lived 300 years ago and did not have to face all this competition in grade III."
